

ERIK J. STALEY, P.E.
Senior Project Manager

EDUCATION: B.S. in Civil Engineering, Southern Illinois University at Carbondale, 2000.

CAREER HISTORY:

2005 - Present

The Clayton Engineering Company, St. Louis, Missouri

As a senior project manager, Mr. Staley manages all aspects of a variety of projects. Responsibilities include hydrologic and hydraulic analyses and design including computer modeling of detention basins, culverts, channels, and commercial site floodplain recovery and permitting. Mr. Staley provides analysis and design for all aspects of commercial, industrial, and residential subdivisions including site layout and grading, sanitary systems, storm sewers, storm water pollution prevention, water quality BMPs, water mains and road improvements.

Mr. Staley also provides coordination between contractors, utilities, and local, state and Federal agencies, including the Federal Emergency Management Agency, the Missouri Department of Transportation, the Metropolitan St. Louis Sewer District, AmerenUE, Laclede Gas, Missouri American Water Co., Missouri Department of Natural Resources, U.S. Army Corps of Engineers, St. Louis County, St. Charles County, Jefferson County, and various cities in and around the St. Louis metropolitan area.

2004 - 2005

Project Design Consultants, Phoenix, Arizona

As an assistant project manager, Mr. Staley performed engineering services on both public and private projects throughout the western United States, most notably in the fields of commercial and private land development planning and design. Mr. Staley provided analysis and design for all aspects of commercial and residential subdivisions including site grading and drainage, hydrology, channelization, lift/pump stations, sanitary systems, water mains, and road improvements.

2000 - 2004

A-N West, Inc., Phoenix, Arizona

As a civil designer, Mr. Staley performed engineering services on both public and private projects throughout the State of Arizona, most notably in the fields of community development, water resources development, transportation, and flood control.
